## TECHNICAL SKILLS

- Database Management
- Web development
- Object-Oriented Programming
- System analysis and design
- Familiarity with tools like visual Studio or similar IDEs
- SQL

## SOFT SKILLS

- Problem-solving
- Teamwork
- Time management
- Adaptability

## LANGUAGES

- English (Fluent)
- Afrikaans (Fluent)

## PROFILE

I am a BSc Information Technology student at North-West University, with a keen interest in databases and data management. I have practical experience in building dynamic websites, working with GitHub, and collaborating on team-based programming projects. With a strong foundation in object-oriented programming and systems analysis, I am eager to apply my technical and problem-solving skills in a professional environment and grow into a role focused on database development or data analysis.

## PROJECT AND EXPERIENCE

### Hotel Booking System

2024

Group Project - CMPG Coursework

- Collaborated with a team of 5 to develop a hotel booking system as part of a software development module.
- Helped create and maintain a relational database using SQL for storing guest information, reservations, and room data.
- Used version control with GitHub to coordinate tasks and track progress.

### Car Rental management System

2025

Group Project - CMPG Coursework

- Participated in a team-based project to create a full-featured car rental management system.
- Assisted with the database design and implementation, ensuring data normalization and consistent relationships across entities.

## EDUCATION

BSc in Information Technology.
